

A stylish digital piano with the playing feel of a full-fledged grand, the Yamaha P-225 features a compact body equipped with useful features from practicing. Compatible with the optional LP-1/FC35 three-pedal unit. *We recommend connecting the FC35 pedal unit to the P-121/P-125/P-125a/P-225 with an optional stand attached. Connecting the FC35 to any of these models placed on a desk will place pressure on the FC35 cable, which may damage the cable. Accordingly, we ask that you refrain from using the FC35 with any of these models placed on a desk.
